Infectious Diseases PGY2 Pharmacy Residency Program

The Specialized Residency in Infectious Diseases Pharmacotherapy at the University of New Mexico Health Sciences Center is tailored to give residents exposure to all aspects of the management of patients with infectious diseases. Experience is achieved through clinical rotations specifically designed to enhance the pharmacist's role in infectious disease pharmacotherapy. The resident learns how to develop, implement, and manage an effective Antibiotic Management Service. Clinical experience is gained through clinical rotations on the Infectious Diseases Consult Services (adult and pediatric services), Oncology Services, Internal Medicine, through services in the STD clinic. Time spent in the infectious diseases HIV clinic is continuous, one-half day per week, throughout the year. The resident is responsible for adherence with HAART regimen in patients infected with HIV.

Continuous involvement in the clinic throughout the year is an excellent opportunity for the resident to develop meaningful relationships with patients and other health care providers. Furthermore, the resident is involved in collecting outcome data in order to improve patient care and provide cost savings to the pharmacy department.

Residency Objectives

1. Provide leadership to patients and other healthcare professionals in achieving optimal patient outcomes.
2. Demonstrate refined pharmaceutical care skills based on a thorough understanding of emerging health care systems.
3. Demonstrate the ability to make judgments, set priorities and assume responsibility.
4. Demonstrate effective teaching skills toward patients and other healthcare professionals.
5. Demonstrate an understanding of Drug Use Evaluation (DUE) and policy Information.
6. Demonstrate an understanding of Continuous Quality Improvement (CQI).

Residency Rotations The resident's first rotation will be spent orienting and training with the microbiology reference laboratory. Subsequent rotations will involve the following areas:

- Orientation (1)
- Adult Infectious Diseases (3-4)
- Pediatric Infectious Diseases (1)
- Internal Medicine (1)
- Elective Rotation (1-2)
- Epidemiology/Antimicrobial Surveillance (1)
- Infectious Diseases Outpatient Clinics (1)
- Research (1)
- Microbiology (1)
- HIV Clinic ½ day per week

Practice Areas

The rotations are mainly based at The University of New Mexico - Health Sciences Center located at 2211 Lomas Boulevard NE, Albuquerque, New Mexico 87106. UNM Hospitals (UNMH) is one of the state's major hospitals, as well as the primary teaching hospital for UNM's health profession students. The 619-bed acute tertiary care facility provides state-of-the-art patient care through inpatient as well as outpatient and emergency services. UNMH was recognized by HCIA as one of the top-100 hospitals in the U.S. in 1994. The resident takes a total of twelve rotations and gains experience from these rotations through working with nationally recognized practitioners in various areas of infectious diseases.
